Miguel Ángel Ballesteros Zafra

DIGITAL PROJECT MANAGER

Business · Design · Technology

Madrid, Spain · mabz.miguel@gmail.com · linkedin.com/in/miguelballesteroszafra · mabz-miguel.github.io

PROFESSIONAL SUMMARY

Digital Project Manager with 20+ years across business, design and technology. Turns complex needs into viable projects by understanding the problem, shaping the solution and leading multidisciplinary delivery. Combines product thinking, UX/UI and creative technology with practical judgement on scope, estimates, budgets and quality. Experience spans studio ownership, digital products, process transformation and GenAI adoption. Connects client priorities with what teams can build, from discovery to final delivery.

CAPABILITIES

Strategy & Delivery — Digital Project Management · Product Management · Scoping · Estimation · Budgets · Stakeholder Management · Process Transformation · Business Cases.

Product & Experience — UX/UI · Product Design · CRO · Customer Experience · Prototyping · Design Thinking.

Creative Technology — 3D/CGI · Motion Graphics · AR/VR/XR · GenAI · Automation · Creative Workflows · Emerging Technology.

PROFESSIONAL EXPERIENCE

Assistant Manager · GenAI Adoption & Digital Innovation 2022 – Present

Accenture Marketing Operations — Madrid, Spain

- Identify opportunities, define requirements and coordinate business, creative and technical contributors across content QA, estimation and workflow automation.
- Apply Design Thinking to understand stakeholders, map AS-IS processes and prioritise solutions against user needs, feasibility, implementation effort and potential business return.
- Design GenAI use cases and production workflows; train teams through internal enablement, ComfyUI sessions and GenAI Hub knowledge transfer.
- Led a five-person automotive CGI interior-lighting function, coordinating onboarding, quality review and consistent delivery.
- R&D and automation initiatives contributed to 25% lower operational costs, 40% faster time-to-market and productivity increases of up to 40%.

UX/UI Designer · XR Expert · Digital Experience 2020 – 2022

Accenture Song / Fjord / Interactive — Madrid, Spain

- Designed and delivered UX/UI and immersive experiences for international clients, including realtime showrooms, XR/AR and product communication. Connected design decisions with technical possibilities and production requirements across disciplines.

Founder · Digital Studio Director 2014 – 2020

BlackSheepStudio — Spain

- Founded and directed the studio, owning client discovery, requirements and project / product definition through final delivery.
- Defined scope, built estimates and project budgets, and planned production, balancing client value, quality and timelines across multiple industries.
- Coordinated external collaborators, reviewed quality and managed delivery, keeping client expectations aligned with scope, costs and production realities.

Art Director · Graphic Designer · 3D Specialist 2003 – 2014

Agencies & Creative Studios — Spain

- Built hands-on depth across art direction, design, branding, advertising, UX/UI and 3D/CGI — the practical foundation for assessing scope, discussing technical trade-offs and setting realistic delivery expectations.

SELECTED PROJECTS & BUSINESS VALUE

Intelligent Content QA System
Identified the opportunity, defined product logic and requirements, and coordinated contributors to turn fragmented manual reviews into a functional, reusable end-to-end system. Covers Master, Pre-live and Post-live checks for titles, metadata, headings, CTAs, links, keywords and brand rules.
FastAPI · Python · Playwright · AEM validation · Rule-based checks · Semantic validation · AI-assisted development.

Marketing Operations Estimator
Defined the concept and structured a reusable planning and estimation framework. Connects capabilities, production complexity, assumptions and dependencies to more consistent scope, effort and budget discussions. Applies product thinking to operations, turning production knowledge into structured commercial decisions.

Design Thinking & Business Process Transformation
Led discovery, empathised with clients and stakeholders, mapped AS-IS processes and translated pain points into prioritised opportunities. Evaluated solutions against user needs, business impact, operational efficiency, feasibility, scalability, implementation effort and potential return — identifying the right problems before investing in solutions.

CGI + GenAI Hybrid Production System
Designed a hybrid workflow for consistent backplates and environments. Uses 3D blocking, camera control, geometry and orthographic views to guide GenAI exploration and client iteration. Aims to retain CGI control while accelerating exploration, balancing the limited control of pure image generation with the production effort of traditional CGI.
Blender · 3ds Max · ComfyUI · 3D / GenAI workflow design.

GenAI Enablement & Workflow Adoption
Identified use cases, designed workflows and training, and translated operational needs into prototypes and tools. Internal ComfyUI / GenAI enablement and knowledge transfer help teams apply AI in real production processes, extending beyond isolated experiments.

EDUCATION & CERTIFICATIONS

Project Management Certificate — Google	2025
Product Management Certification — ESIC	2025
Design Thinking Certification — Universidad Nebrija / Euroinnova	2025
CRO & Product Designer — Gen/D	2022
UX/UI Advanced — Mr Marcel School	2020
VR / AR / XR Development Expert — UTAD	2017–2018

ADDITIONAL SPECIALIST TRAINING

The Creative Process in Graphic Design — IED Madrid	2021
How Designers Make Decisions — La Nave Nodriza	2021
Digital Art for Animation and Video Games — Animum	2013
Graphic Art and Advertising — C.E.N.P.	2001–2004
